

CUSTOMER ANNOUNCEMENT -AIR FAST CONGO

CERTIFICATE OF ACHIEVEMENT DELIVERED BY

"LITSON & ASSOCIATES DIAMOND MEMBER"

AIR FAST CONGO is pleased to inform its kind customers about the success of its **Safety audit**, carried out by the internationally renowned company LITSON & ASSOCIATES last 05 to 12 July 2021.

We are the first Airline in D.R.C. to be rewarded as **DIAMOND !**

The success of this audit shows that the Company meets **BARS and ICAO standards**, the highest levels of safety practiced in the aviation's industry.

During this audit, each of the following company's department has been assessed: General Management, Safety Management System, Quality assurance, Security, Flight operations, Ground operations, Maintenance, crew and engineers' trainings and qualifications, ground staff, passenger boarding and disembarking procedures, aircraft physical inspections, subcontractors, etc...

This Certificate of Achievement therefore attests the airworthiness of the company's aircraft and guarantees the Safety of its operations.

PS : Please find below the copy of the CERTIFICATE and the letter both issued by the CEO Mr. LITSON Mike.

République Démocratique du Congo.

Dear Patrick,

06 Sept 2021

AIR FAST CONGO - L&A AVIATION SAFETY AWARD – recurrent award

In 2017 L&A introduced the Aviation Safety Award (ASA) scheme. This award scheme is designed to identify and reward airlines and non-scheduled aircraft operators who have either consistently met L&A's required Standards over a two-year or more period of annual Safety Reviews, or who have undergone an L&A Safety Review specifically requested by them in terms of the ASA Scheme.

All Findings and Recommendations have to be successfully addressed and closed within stated timeframes under the terms and conditions of the award scheme.

Air Fast Congo was awarded a GOLD level certificate in 2020 and thereafter successfully completed another L&A Operational Review in July 2021 with all Findings addressed and closed within the timeframes required. Based on the results of this Operational Review, we have pleasure in advising Air Fast Congo that, at an L&A ASA Scheme Committee Meeting in September 2021, your Aviation Safety Award level has been re-awarded and elevated to DIAMOND for the period July 2021 to July 2022.

Our compliments and congratulations to Air Fast Congo. This is the first Diamond award in the DRC. We encourage Air Fast Congo to continue to employ the high aviation Standards we have come to expect from your Company in all aspects of the company's activities including Flight and Ground Operations, Maintenance and Training.

We look forward to visiting Air Fast Congo again in 2022 or sooner.

Kindest regards,

M.J Litson
Managing Director
